**Mediation choices of Russian-speaking immigrants in southern Catalonia**

### Introduction

**Work Package 4: Mediation**

Team URV

Professor Anthony Pym

Dr. Nune Ayvazyan

### Research design

- **Method:** Interviews in Russian
- **Sample size:** 51 (29 women, 22 men)
- **Russian-speaking migrants from ex-Soviet countries**
- **Main variables:** Age, length of mobility

### Reasons for mobility

- **Social exclusion**
- **Foreign languages spoken**

### Translation and interpreting services

- **Types of translators reported being used**
- **Interpreters reported being used**

- **Have you ever interpreted for others?**

### Lingua francas

- **Is it important to know the language of the country, where you live?**

### Translation technologies

- **Do you use Google Translator or other online translating services?**

### Mediation choices

The research leading to these results has received funding from the European Community’s Seventh Framework Programme under grant agreement No. 613344 (Project MIME).
